WORK EXPERIENCE

React Developer 2023 - Current

WIT EOOD

Dynamic IT professional based in Plovdiv, Bulgaria, contributing to a rapidly evolving company specializing in highly innovative IT solutions for global clients. Proficient in working with React, React Native, and Next.js, with a strong focus on enhancing existing web applications and developing new ones to drive exceptional user experiences.

Front-End Developer 2022 - 2023

Devision LTD

Located in the heart of Sofia, Bulgaria, Devision is your trusted partner for bespoke software and product development services. We specialize in harnessing the power of automated delivery and testing processes, all while adhering to an agile methodology. Our core technologies include React, Next.js, and occasionally Angular.

Front-End Developer 2021 - 2022

One Beyond

One Beyond is a multi-award winning bespoke software development company. One Beyond delivers large-scale digital transformation, team augmentation, delivery of discrete Agile projects and world-class bespoke software using complementary tech including, but not limited to, Microsoft .NET, Power BI, React, and Node.js. Accredited with Microsoft Gold Partner status, as well as ISO 9001 & ISO 27001, the firm's highly competitive services are leveraged through an optimal blend of international delivery centres either UK-based or nearshore, all operating under One Beyond's best practice methodology and with a partnership approach, to generate consistent and superior quality products and services.
