

Yordan Krushkov

FULL-STACK JAVASCRIPT DEVELOPER

Experienced web developer with nearly three years of expertise in crafting web applications from the ground up and successfully transitioning legacy projects to embrace cutting-edge technologies. I thrive on tackling challenges and eagerly immerse myself in projects that demand expanding my ever-growing skill set, as I continually explore and adopt new languages and techniques.

PROFESSIONAL EXPERIENCE

March 2023 – Ongoing

SOFTWARE ENGINEER

WIT WIT EOOD

Dynamic IT professional based in Plovdiv, Bulgaria, contributing to a rapidly evolving company specializing in highly innovative IT solutions for global clients. Proficient in working with React, React Native, and Next.js, with a strong focus on enhancing existing web applications and developing new ones to drive exceptional user experiences.

Key responsibilities:

- ✓ Leveraged React to enhance existing web applications, optimizing performance and user interface.
- ✓ Applied React Native to develop mobile solutions, ensuring seamless user experiences on various platforms.
- ✓ Spearheaded projects involving React and Next.js to create new web applications from the ground up, meeting and exceeding client expectations.
- ✓ Collaborated closely with cross-functional teams to deliver high-quality solutions.

Apr 2022 – March 2023

SOFTWARE ENGINEER

Devision Ltd.

Located in the heart of Sofia, Bulgaria, Devision is your trusted partner for bespoke software and product development services. We specialize in harnessing the power of automated delivery and testing processes, all while adhering to an agile methodology.

Key responsibilities:

- ✓ Developing and maintaining web applications using React and Next.js: This highlights your primary focus on these two frameworks. You are responsible for both building new web applications and enhancing existing ones using React and Next.js.

- ✓ Collaborating with international clients from all parts of the world: You work closely with clients from diverse backgrounds and regions, ensuring effective communication and understanding of their requirements.
 - ✓ Participating in daily standup meetings and using Agile methodology: You follow Agile development practices, including daily standup meetings, to maintain an iterative and collaborative approach to software development.
-

Jul 2021 – Apr 2022

FRONT-END DEVELOPER

DCSL GuideSmiths is a multi-award winning bespoke software development company. DCSL GuideSmiths delivers large scale digital transformation, team augmentation, delivery of discrete Agile projects and world class bespoke software using complementary tech including, but not limited to, Microsoft .NET, Power BI, React and Node.js. The company's capabilities also include DevOps proficiency and deployment on Azure and AWS. Accredited with Microsoft Gold Partner status, as well as ISO 9001 & ISO 27001, the firm's highly competitive services are leveraged through an optimal blend of international delivery centres either UK-based or nearshore, all operating under DCSL Guidesmiths' best practice methodology and with a partnership approach, to generate consistent and superior quality products and services.

Key responsibilities:

- ✓ Working on existing or creating new web applications using Vue.js
 - ✓ Building a web application with React JS, Redux and styled components
 - ✓ Participating in daily standup meetings and using Agile methodology
-

April 2021 – July 2021

SOFTWARE DEVELOPER

Soon incoming online sports broadcasting company, Sport Stream will be filming, streaming and packaging highlights for amateur and semi-professional sports teams and clubs.

Key responsibilities:

- ✓ Building a web application with React JS
 - ✓ Building a back end application on Node.JS with Express.js.
 - ✓ APIs
 - ✓ Building a mobile application with React Native
 - ✓ Integrating specialised software for video streaming.
-

Feb 2021 – May 2021

WEB DEVELOPMENT INTERNSHIP

Three-month internship focused on front and back end web development, coding and editing websites and blogs.

Key responsibilities:

- ✓ Working on existing PHP/jQuery projects
 - ✓ Creating new design of existing web pages
 - ✓ Working with SQL database
 - ✓ Researching marketing strategies, meta tags and keywords
 - ✓ Finding and fixing bugs in existing projects
-
